• https://chebbebang.github.io/

A web developer with over 4 years of experience. With a proven track record of developing interactive and responsive web pages, I bring a results-driven approach to web development. Leveraging innovative technologies, I focus on enhancing user engagement and driving increased traffic to websites.

WORK EXPERIENCE

Turnkey Processing, LLC • 04/2021 - 01/2024
Web Developer
- Developed and designed custom web pages, plugins and themes for small to medium businesses around Connecticut, USA, using WordPress with Elementor as the page builder.
- Maintained and debugged web pages to ensure fully functioning web services to meet customer satisfaction.
- Implemented leading SEO strategies including meta tag optimization, backlink acquisition, and responsive design for various devices, resulting in a 20-30% increase in user traffic within the initial month post-deployment.
- Led projects and fostered collaboration among departments and stakeholders to optimize outcomes and achieve high customer satisfaction.

LOGIMINE • 12/2019 - 11/2020
Junior Frontend Software Developer
- Developed web applications to mimic Flash (Java) applications.
- Monitored and fixed bugs from the company's different web applications.
- Co-developed reusable functions in modules to minimize redundancy and ensure compatibility with other web applications.
- Technologies used to make web applications are HTML, CSS, Javascript, JQuery, and TortoiseSVN as the version control.

ActionLabs IT Services Phils. Corp • 05/2019 - 11/2019
Technical Support Engineer
- Installed software on server and client PC.
- Implemented best practice in security and privacy.
- Updated and maintained POS system, biometric and PC server used by clients.
